#### "CORSIGANA BILL"

"Corsicana Bill" is certainly get ting some action and is seeing life in Corsicana. Even though he has just started on his long journey his experiences have already been var ied and he has been the medium of barter whereby many commodities have changed hands. He is ever on the go and never stops-fron store to store he merrily finds hiway and if he could talk he could tell many interesting stories. A: this early date of his thirty day career he has purchased everythin; from neckwear to razor blades. B fore he is through there is a possi bility of him being found in the col lection plate of some of our churches-yes there are yet sompeople who place a dollar in the Sunday collection, A complete rec ord is being kept of "Corsicana Bill's journeys and each day his adventures are published in the Sun. At the end of thirty days the diary of "Corsicana Bill" will, indeed be interesting reading and he will have been handled by hundreds of persons. When "Bill" comes into your possession-pass him on -keep him moving-but don't let him get out of Corsiena. "Corsi cana Bill" is a one dollar bill which was started on a thirty day journey in Corsicana Monday when Fred White, secretary of the Corsicana Retail Merchants Association purchased a tie from Harrison Fend ley, manager of Johnson's Clothing Store and president of the Asso ciation. "Bill" will be watched

#### DEVELOPMENT CAMPAIGN

with great interest. Every bill is

a "Corsicana Bill" and should be

kept at home and working.

The Home Town Prosperity ar Community Development Campaign which is being carried on by the Cor sicana Daily Sun is not only at tracting much attention in Corsi cana but has received recognition from many sections of the state Many favorable comments hav been made by individuals from other sections of the state as wel as has the press taken occasion to make flattering comment. Under the caption of "Promotion" Stat Press in the Dallas News recently gave the following recognition to the campaign as the lead article o his daily column:

"The Corsicana Sun is develor ing a two months' campaign of Home Town Prosperity and Com munity Development. 'There are thousand families living in les favored sections who could fin this a better place to live educate their children and become a part o. Concicana's citizenship,' declarethe Sun. It is so. Except that State Press would amend the figures an change them from one thousand families to twenty million familie -all the families, that is, excepthose in Texas. All of Texas is so good that it is like Corsicana, o Corsicana is like, but outside the frontiers of this Commonwealth things get worse. Still we wouldn't want everybody to come to Texas eren though Corsicana could accomodate all those seeking a super ior place of residence. We are rather choosy, indeed, when it comes to admitting new citizens That titled English lady-Lady Scareskirt, wasn't it-who was sent back because she admitted not being very nice, has discovered that however lightly moral turpitude may be regarded in her set, it is far from being considered a lady's credential in this country However, it was not the intention of State Press to launch an essay on international ethics, or anything complex like that but rather to commend the Sun's effort to pepize Corsicana. The example might profitably be followed by other aspiring cities."

#### THE TEACHER

The word "I" is the word most | frequently used by children of five plant trees and shrubbery-

years, an international kindergarten survey shows. That was to be Semi-Weekly Light expected, of course. It takes a ood many years of experience be ore a human being begins to understand that he is only one unit in a very big affair. and some never learn it.

But another result of the survey is of great interest. "Teacher" was the eighth word in frequency of use, while "mother" ranked twenty ourth and "father" was eigh teenth. Even taking: into consider ation the fact that 'the survey was taken in kindergs rtens where "teacher" would be prominent in their minds, the relative frequency of use of the words; gives startling insight into the influence the teach ers of children have on them. It ·llustrates forcefully the need for well trained teachers and more than justifies the raised standards of education required of those deiring to teach.

#### WHY NOT DO IT NOW?

While the income tax blanks have een distributed or rendered availble to all persons who will have o make a return, it would be in eresting to know how many have en begun filling them out, to say othing of sending them in to the ellector. Attending this most necssary matter is a good deal like oing Christmas shopping.

Long before the season arrives ne easily resolves to do it "early," out when the time comes the maority put off the inevitable to the st few days and then make a hirlwind finish, turning into a sk what should be a pleasure. taking out one's income tax reurn can scarcely ever be classed mong the popular indoor pasmes; but if the duty is underaken in time so as to render haste nd worry unnecessary, it need of be so onerous as it is commonly garded. Since the tax is upon the ncome received last year, the fig-128-a man's res are now all in one's posession There is nothing to wait for. The lank can be filled out as well tolay as three weeks hence. If all 31-a quantity ersons who have to make a reurn would do so before the end of this month, they would not only ave themselves trouble, but they would considerably lighten the burden of the difficials whose duty t is to receive and record the document.

The income tax now reaches the reat majority of wage-earners, who nave thus come to take more diect interest in governmental aflairs because they affect their own. The last day for filing returns is March 15, but wise perstons will atend to this duty long before that

With a little concerted effort or he part of the citizenship of Coricana and Navarro county a per nanent fair plant second to none ould soon be a reality. Let's get ogether and build a fair plant.

On the other hand, when omes to his newly acquired father-in-law, Irving Berlin is not very popular song writer.

OUTCOME OF TESTS OF OIL SAND BEING WATCHED CLOSELY

Bailing is being carried on at New York, March 1.—The Na-the Ennis well today after the new tional Industrial Conference Board The casing was run Sunday and the bailing line strung up Monday morning. A test is being made of the oil sands found in the well where the water sand

Whether the test will be drilled on the Ennis city lake property will likely be determined by the outcome of the test made of the deep well. Should it, fail to make an oil showing it is hardly possible that other tests will be made in the Ennis district at this time, in the opinion of oil men. On the other hand, if as much as a good showing of oil is made, the boom will continue in that area with a number of wells to be drilled.

## **BLOOMING GROVE** MONDAY EVENING
